-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Applicant's arguments with respect to claims 3-9 and 12-24 have been considered but are moot in view of the new ground(s) of rejection.

The Status of Claims

Claims 3-9 and 12-24 are pending.

Claims 4-9, 12, and 14-22 are rejected.

Claims 3, 13, and 23-24 are objected.

DETAILED ACTION

1. Claims 3-9 and 12-24 are under consideration in this Office Action.

Priority

2. It is noted that this application claims a benefit of 60/410,421 (09/13/2002).

Drawings

3. The drawings filed on 09/15/2003 are accepted by the examiner.

Claim Objections

Claim 3 is objected to because of the following informalities:

In claim 3, the following chemical names have still contained heterocyclic ring structures in them:

Art Unit: 1625

“
(1*R*,2*R*,3*S*,5*S*,8*E*)-9-(*tert*-Butyldimethylsilanyloxy)-2-methyl-3-triisopropylsilanyldioxabicyclo[3.2.2]-non-8-ene;
”

The examiner will examine only the "non-heteroaromatic group" under the restriction requirement. This implies that any limitations unrelated to the Group II must be taken out from the claims. Appropriate correction is required.

Claims 13, and 23-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4-9, 12, and 14-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, the terms "in steps" is recited. This expression is vague and indefinite because the skilled artisan in the art could not figure out what and how the steps are specified. Therefore, an appropriate correction is required.

In claims 6, and 8-9, the phrase "substituted phenyl" is recited. This is vague and indefinite because in the absence of the specific moieties intended to effectuate modification by the "substitution" or attachment to the chemical core claimed, the term "substituted" renders the claims in which it appears indefinite in all occurrences wherein applicants fails to articulate by chemical name, structural formula or sufficiently distinct functional language, the particular moieties applicants regards as those which will facilitate substitution, requisite to identifying the composition of matter claimed.

In claim 12, the terms "a blocking group" is recited. This expression is vague and indefinite because there are numerous blocking groups in the art; skilled artisan in the art could not figure out what kind of a blocking group is suitable for the current invention within the metes and bounds for the scope of the instant invention.

In claim 22, the term "a sily- containing blocking group" is recited. This expression is vague and indefinite because the skilled artisan in the art could not figure out what else the sily- blocking group may contain in the claim.

Therefore, an appropriate correction is required.
